SIGNATURE TALKS

01 Your Room Sees The Future First

One hour that makes a room want to go and build something. Four acts, one idea: seeing the future before anybody else has.

Keynote / 1,000+ people

02 Your AI Brain

What a business looks like the day it has a memory of its own, shown live, built in the time it used to take to describe it.

Workshop / 50 to 200 people

03 The Human Code

The part of a person that cannot be copied, and why it is worth more now rather than less.

Keynote / 500 to 1,000 people

BIOGRAPHY

Miguel Carrasco builds the machines. He has founded three software companies, including an AI estimating company for heating and cooling contractors, and before that was a Microsoft Technologies Consultant and Microsoft MVP in User Experience Design. He has been building with AI since the late nineties and runs a roster of AI agents and a second brain inside his own businesses every day. With his wife Erin he co-founded Captivation Hub and The Boss Life, where they teach entrepreneurs to grow with faith, family and freedom at the center. His keynote at Funnel Hacking Live 2026 in Las Vegas, the AI After Dark night session, is a motivating, inspirational talk about what AI can really do and what is coming next. Nobody needs to know anything about AI to follow it, and nobody who builds with it every day is bored by it. Husband to Erin, father of three. Faith first.
